

NEW CITROËN C5 X

PRICING, EQUIPMENT & TECHNICAL SPECIFICATION GUIDE

Version 1 - January 2022

AUDACITY COMBINED WITH INNOVATION FOR A SERENE TOURING EXPERIENCE

Model Year - 22.00

NEW C5 X - THE PERFECT EMBODIMENT OF CITROËN'S PHILOSOPHY

C5 X - The Story.

Citroen brings you the stunning C5 X - the best of all worlds. Its beauty seamlessly combining the elegance of a saloon, the practicality of an estate, the robustness of an SUV and the sleekness of a coupe - all without compromise.

Style, comfort, technology, performance - nothing has been lost.

Building on years of heritage and expertise in the segment, including two former winners of the 'European Car of the Year' title, Citroen has successfully engineered and developed the pinnacle of its portfolio and a car that we are exceedingly proud to call our flagship

Years of research at the heart of the segment, working with the primary users of this range of vehicles, we have incorporated the feedback received and engineered it into the development of the jewel in our crown.

C5 X embraces Citroën's glorious lineage, pays homage to it's predecessors and stands squarely on the shoulders of giants ready to write the next chapter of the Citroën story - A celebration of our past whilst simultaneously looking into the future.

C5 X's style is the perfect embodiment of Citroën's philosophy. It offers real on-board serenity thanks to the ultimate comfort provided by the Citroën Advanced Comfort® programme, with a passenger compartment worthy of a lounge area, including all-new Citroën Advanced Comfort active suspension and Advanced Comfort seats. It is further enhanced by technology to simplify life on board, with the extended Head up Display, driving assistance systems that introduce semi-autonomous driving and a whole new 12" HD touch screen communication interface with natural vocal recognition.

"With C5 X, Citroën has created an ambitious, large touring vehicle, a real tool for winning over customers who are increasingly inclined to explore the world. An audacious and original proposal that truly embodies all of Citroën's expertise: innovation, care and above everything well-being which we elevate here as a certain form of art of living." Vincent Cobée, Citroën CEO

"With its innovative styling that combines the elegance of a saloon, the dynamism of a station wagon and the robustness of an SUV, C5 X embodies the audacity of Citroën's style. Its unique morphology, aerodynamic lines and modern light signature make it a true Citroën, immediately recognisable on the road." Pierre Leclercq, Citroën Design Director

"With C5 X, we wanted to provide an emotional and rational response to D-segment customers looking for modernity, refinement, comfort and versatility. With its unique bodystyle, increased comfort, its plug-in hybrid engine and innovations, C5 X offers pleasure and peace of mind in a true Citroën way."

Laurence Hansen, Citroën Product & Strategy Director

NEW C5 X - STYLING

Exterior Styling.

An iconic exterior silhouette boasting advanced comfort, agility, refinement, technology, functionality and accessibility. Inspired by the critically acclaimed CXperience concept car, CX, XM, C6 and the current Citroën range. C5 X is a celebration of the past, the perfect car for the present and a glance into the future.

The unmistakable front face of Citroën - the two level V-shape light signature.

The upper chevron underlines the edge of the bonnet, emphasises vehicle width and terminates in a single, slender, sleek LED DRL.

The lower chevron terminates into the LED headlamps including the second LED DRL signature.

Effective use of chrome and gloss black finishes help to break up the mass of the strong imposing vertical front face.

A sleek bonnet with crisp graphic scoops assert its road presence.

An affirmative, imposing profile with strong attention to aerodynamic detail

A dynamic look combining the elegance of a saloon, the practicality of an estate, the robustness of an SUV and the sleekness of a coupe.

Perfectly styled with tension & twisting muscular form harmoniously combined with sharp lines that emphasise its modernity.

Its carefully sculpted exterior expresses strength, invulnerability, serenity and comfort.

A high belt line and elongated roofline are complemented by an aerodynamic (upper) spoiler and a (lower) spoiler providing enhanced downforce and improved braking stability.

19" alloys with lightweight flexible inserts reduce overall weight and improved aero-dynamism via a turbine effect which complements the low rolling resistance tyres.

The result is great ground clearance and the highest eye point in the segment providing the driver with improved all-round visibility and a heightened sense of safety and security akin to that of an SUV.

Rear end styling that expresses status, strength and elegance.

Generous curved sections, chrome detailing and a practical (wide and low) tailgate help seat the vehicle and reinforce its stature.

The imposing rear LED light cluster, the outer lens of which has been optimised for lateral aerodynamics, invites the eyes to travel beyond the back and around the side of this stunning car.

Finished with elegant chrome-trimmed gloss black chevrons and Citroën chrome signature, those behind are left in no doubt as to the origins of the breath-taking car in front.

Interior Styling.

C5 X offers unique interior design focused on space, comfort and elegance. The "lounge" like interior is designed to create a sense of well-being and relaxation. The feelings of spaciousness and luminosity are further enhanced by C5 X's 360° glass curtain.

The main lines of C5 X's cabin were designed to bring maximum width and a feeling of expansiveness.

The creative use of the upper chrome decor to connect the side air vents, combined with the lower decor which runs elegantly through the dashboard before connecting with the door decor, provides continuity which visually enlarges the interior.

An uncluttered centre-console, with a variety of segment-leading storage spaces, seamlessly combine comfort and practicality.

The HD touch screen offers a great user experience for all.

A frameless display of unique design, integrated with the centre air vents creates a strong iconic focus for the dashboard.

The instrument cluster is designed with a black panel effect (smoked lens) with an ambient light on either side, again creating a floating effect.

The e-HUD technology projects essential driving information directly into the driver's field of vision enhancing safety and serenity.

Over and above the materials used to construct the standard Advanced Comfort seats, particular attention has been paid to all contact areas.

As an example, the intelligent use of foams has been adopted to further soften high contact areas such as the steering wheel, armrests and centre-console.

Acoustic windows offer unrivalled insulation from road noise - especially important for PHEV drivers and passengers.

All of this reinforces the "cocoon" feeling of the C5 X lounge interior.

All too often rear seat passengers are forgotten and forced to sacrifice comfort and space.

One of the key priorities during the development of C5 X, was ensuring maximum space and comfort for rear seat passengers. The result is among the best in segment.

Compared with previous Citroens in this segment there has been a gain of over 6cm in legroom.

Further complemented by Advanced Comfort seats, the rear seat of C5 $\rm X$

Experience ë-Comfort with C5 X Hybrid

Enjoy the driving experience of a PureTech 180 S&S petrol engine, 80 kW electric motor, and a hybrid-specific ë-EAT8 electrified automatic gearbox which seamlessly combine to deliver a power output of 225hp. The system offers multiple driving modes to suit your requirements - electric, hybrid, comfort and sport (detailed later on this page).

C5 X Hybrid offers the benefits of a modern plug-in hybrid - including the range to drive in Electric mode for up to 34 miles (WLTP combined range for standard UK specification), covering most drivers' regular daily mileage - with the comfort and modularity for which C5 X is a benchmark. It benefits from Citroen Advanced Comfort active suspension for assured handling. It also boasts great boot space and far greater modularity due to its $\frac{1}{3}$ - $\frac{2}{3}$ split, folding rear seats, offering boot space of 485 litres.

With a home charging point rated at 32A, you can charge your C5 X Hybrid to full capacity in under 2 hours with the included type 2 charging cable and 7.4 kW on-board charger. You can also purchase (as an accessory) a domestic charging cable for the occasional charge from a 3-pin socket.

The innovative illuminated charging port on the vehicle helps show you the charging status. You can also schedule charging of the vehicle when plugged in, either through the vehicle's touchscreen or via the e-Remote Control function* of the MyCitroën app, so you can benefit from off-peak energy prices.

C5 X Hybrid includes an 8 year / 100,000 mile traction battery warranty for 70% of its capacity.

Thermal pre-conditioning - feel at home in your car from the moment you step in

Using the e-Remote Control function* in the MyCitroën app, you can set C5 X Hybrid to welcome you on-board by warming up or cooling down the cabin to a comfortable 21°C in advance. You can do this whether or not the vehicle is plugged in to a charging point (dependent on the level of charge in the vehicle) - if the car is plugged in then you can benefit from this function without it impacting the range, because the power is drawn from the charging point rather than the battery.

* subject to subscription to e-Remote Control services at no extra cost - sign up via the Citroën Services Store online at https://services-store.citroen.co.uk/

C5 X Hybrid offers you multiple driving modes, easily selectable via a control on the central console:

Electric - full electric mode for up to 34 miles with no engine noise, zero tailpipe emissions, no vibration, and no stress

Hybrid - the best of both worlds - the vehicle decides the best mix of traction between the electric motor and the petrol engine

Sport - the combination of both electric and petrol propulsion for performance that satisfies the most demanding of conditions

Comfort - optimises traction between electric motor and petrol engine but with softer suspension to add extra comfort

returned to the battery to help maximise electric range. Brake mode can be easily selected using the ë-EAT8 controller.

Brake mode allows you to benefit from energy regeneration: when brake mode is selected, energy generated when the car slows down is

ë-Save allows you to set a reserve of electric range aside for use later in your journey, for example if you know you'll be driving in an

Frameless rear-view mirror with blue LED Electric driving mode indicator

C5 X Hybrid includes an elegant 'frameless' rearview mirror, with electrochrome dimming so you aren't dazzled by following drivers' lights when driving at night. It integrates a blue LED which illuminates when driving in Electric mode, to make it clear the vehicle is operating with zero tailpipe emissions.

C5× hybrid

New Hybrid-specific user experience

C5 X Hybrid has a custom user interface that helps the driver get the most out of the Hybrid system. The standard digital instrument cluster is designed to show the most relevant information to the Hybrid driver, such as remaining range and what driving mode you're using.

The user interface of the standard touchscreen also has custom Hybrid information pages.

These give the driver easy access to information such as energy flows, as well as offering them the ability to set up scheduled charging and thermal

NEW C5 X - PLUG-IN HYBRID

Citroën Pluq-in Hybrid Drivetrain

The C5 X platform has been designed so you can select either petrol or plug-in hybrid drivetrains when you order. With its hybridspecific ë-EAT8 electrified automatic gearbox with multi-disc wet clutch, C5 X Hybrid effortlessly combines petrol and electric power to give you the smoothest driving experience whether you're in Comfort, Normal or Sport driving modes.

ZERO COMPROMISE

Spaciousness, versatility and comfort fully preserved

Charging: Your C5 X Hybrid is supplied with a Type 2 (Mode 3) charging cable as standard, perfect for charging points. If you don't currently own an electric vehicle, the idea of charging your car might seem new to you, but it'll soon seem as routine as plugging in your mobile phone to charge. At Citroën we've made it even easier for you to charge your car at home or on your travels, through our partnerships with Pod Point and BP pulse.

Pod Point: If you don't already have a charging point at home, your Citroën dealer can introduce you to Pod Point, our home charging partner. Pod Point supply and install accelerated home charging points (wall boxes) that allow you to charge your C5 X Hybrid fully in under two hours (based on a 7 kW charging point). Once you've been referred, Pod Point will contact you and manage the process fully from booking to installation. Pod Point are market leaders in both volume of points fitted and customer satisfaction, and Citroën customers benefit from an extended warranty on the charging points. Business and fleet customers can also talk through workplace installation options and have a free (virtual or physical) site survey.

bp pulse: When you're away from home, you want to be able to count on a charging network with great coverage across the country. We've partnered with bp pulse, the largest and best-performing public charge network in the UK, to offer Citroën customers buying a brand new C5 X Hybrid a 6 month free subscription to the **bp pulse** service, which offers a wide range of charging points, most of which don't incur any extra per-kWh charge. Even if you're a current **bp pulse** subscriber, if you buy a new C5 X Hybrid you're still eligible for this offer.

You can also purchase additional cables for charging your car, for example if you want to keep one at home and one in the car. These are available to order from your Citroën dealer, who will be able to advise you of availability and pricing.

- Replacement/additional cable (Mode 3, Type 2 connectors, for 7.4kW sources)
- 6 metre domestic charging cable (Mode 2, 10 amps, with 3-pin domestic plug for occasional domestic charging)

KEY SPECIFICITIES of PLUG-IN HYBRID vs INTERNAL COMBUSTION ENGINED VEHICLES

NEW C5 X - COMFORT

An Invitation To Travel In Absolute Comfort

C5 X's cabin provides warmth, tranquillity and space. An invitation to travel through generous proportions, a sense of welcoming, unique attention to detail and unprecedented practicality. In line with the purest Citroën tradition, elegance and comfort, combined with innovative technology, are the watchwords of this welcoming passenger compartment.

Citroën Advanced Comfort® Seats

- Visual comfort: the uniquely shaped padding & distinctive Citroën stitching give the visual impression of soft and cosy cushioning.
- Welcome comfort: provided by the extra 15mm of foam is immediately apparent upon taking a seat and is akin to a mattress topper.
- Postural comfort: is provided by the reinforced support offered by the broad and generously sized seats.
- Dynamic comfort: ensures comfort through a combination of a high-density sheet

Luminosity & Acoustics

C5 X features a 360° glass curtain around the car. The addition of an option to add a large opening glass sunroof allows further light to flood in.

This feeling of luminosity combined with front and rear acoustic laminated windows provides exceptional insulation from outside noise further enhancing cabin comfort and the enjoyment of driver and passengers alike.

Citroën Advanced Comfort® Suspension (Standard on PureTech 130 & PureTech 180 S&S EAT8 versions)

Experts in the field of chassis and suspension, Citroën has developed a new suspension system, designed to improve damping while maintaining passenger comfort, which is a brand characteristic our customers have come to value the most.

The operating principle is simple but the result is impressive. Whereas a conventional suspension system includes shock absorbers with springs and mechanical bump stops which can cause abrupt changes to the vehicle dynamics, Citroën's system adds hydraulic stops – one for rebound and one for compression to reduce rebound and compression forces applied to the chassis and improve the handling/comfort balance.

This has become described as a 'flying carpet' like ride as it improves the absorption of road irregularities and deformations.

Citroën Advanced Comfort® Active Suspension (Standard on Plug-in Hybrid 225 ë-EAT8 versions)

On plug-in hybrid versions, C5 X takes comfort a step further by combining hydraulic stops with a controlled suspension system activated by the choice of driving mode - Comfort, Normal & Sport. Each mode has specific steering, engine and gearbox configurations which combine seamlessly to optimise occupant comfort by adapting the suspension to driving style and road

NEW C5 X - TECHNOLOGY

My Citroën Drive Plus Infotainment System

C5 X debuts Citroën's enhanced infotainment system - My Citroën Drive Plus. Designed for optimal ergonomics, it benefits from smartphone/tablet inspired widget architecture enabling user defined shortcuts for simplicity. It can seamlessly connect to your smartphone using either wired or wireless mirroring connections.

An on-board digital assistant with voice recognition capability (developed in conjunction with Soundhound) enables the user to easily control elements such as in car climate, navigation, audio selections and smartphone operations. The system is compatible with both Apple CarPlay and Android Auto.

A customisable page of user-defined shortcuts allow favourite/frequently used options to be grouped together. From here the user can start navigation to a chosen destination, launch a predefined media playlist and launch other applications (ADAS, climate control, smartphone etc).

As a final step in the customisation process, the user is able to define a custom user profile and select their preferred screen ambience.

eHUD - Extended Head Up Display

The extended Head Up Display is the most advanced HUD technology available on the market.

It projects essential driving information on to the car's windscreen, directly in to the driver's line of sight redefining ergonomics and driving

The driver can easily customise the display to show their preferred information by using the steering wheel mounted controls.

The information that can be displayed on the eHUD includes speed, road signs (including speed limit recommendation), driving aids, navigation, media & phone management and driving alerts.

Highway Integrated Assist

Highway Integrated Assist (HIA) is a first step towards autonomous driving. It enables the driver to benefit from partial delegation without substituting driving - particularly adapted to motorways and highways.

Composed of two elements: Adaptive Cruise Control with Stop & Go function and Lane Positioning Assist (which helps maintain position within driving lane).

NB: The driver <u>must</u> retain full focus and <u>keep their hands on the steering wheel</u> when using the system. The system uses a windscreen camera and front central radar and is operational between 0-111mph.

Lane Change Assist & Rear Cross Traffic Alert

C5 X benefits from long range (up to 70 metres) blind spot monitoring which helps to make lane changes effortlessly safe. When a hazard is identified an illuminated visual alert is displayed in the door mirror.

The Rear Cross Traffic Alert promotes safety when undertaking reversing manoeuvres. In today's busy world you won't miss pedestrians, cyclists or other vehicles when reversing your C5 X.

Keyless Proximity Entry & Start

Allows you to lock, unlock or start your car while keeping your key firmly in your pocket. The car recognizes the key holder's approach and unlocks itself (while the driver is approaching) or locks itself (while the driver is walking away). To start the vehicle, simply press the Stop/Start button.

360° Vision Camera

Allows visualisation of objects and obstacles around the car so as to facilitate safe manoeuvring and avoid contact with them. Helps the driver to eliminate blind

The image on the high-definition screen is generated by using 4 HD cameras installed on the vehicle (front and rear faces, under exterior mirrors). The selected view is represented on the left, the driver can choose to display one of the four views on the right part of the central screen.

NEW C5 X - STANDARD EQUIPMENT

Safety and Security

- Driver and front passenger frontal airbags (with front passenger airbag deactivation function),
 lateral airbags and curtain airbags
- Unfastened seatbelt visual warning system on all seats plus audible warning for driver/front passenger (with presence detection for front passenger)
- Front inertia reel seatbelt with pre-tensioners and force-limiters
- Five 3-point inertia reel seat belts
- Outer rear seats with ISOFIX mounting points including top tether
- In-crash braking (multi collision braking)
- Pedestrian protection active bonnet
- Electronic Stability Program (ESP) with intelligent traction control
- Hill Start Assist function
- Tyre under-inflation detection
- Citroen Advanced Comfort suspension with double (front & rear) progressive hydraulic cushions (ICE versions)
- Citroen Advanced Comfort Active controlled suspension with double (front & rear) progressive hydraulic cushions (Hybrid versions)
- Height & reach adjustable electric variable power-assisted steering
- e-Toggle automatic gear selector switch on centre-console
- Sensitivity setting selector switch Normal/Comfort/Sport (Hybrid versions only)
- Electric parking brake
- Perimetric, volumetric and anti-tilt alarm
- Remote 4-window opening/closing with plip
- Electric rear door child locks
- Deadlocking
- Coffee Break Alert
- Dual tone horn
- Front & rear parking sensors with rear parking camera

Exterior Lighting and Visibility

- Automatically illuminating LED headlamps with automatic High Beam Assist (with driver adjustment controls in passenger compartment)
- LED front daytime running lights
- LED front indicators (incorporated into daytime running lights)
- LED fog lights with static cornering function integrated into front bumper apron
- LED rear lights, high level LED brake light and LED rear number plate lighting
- Automatic illumination of headlamps when unlocking
- Automatic 'welcome' and 'follow me home' lighting
- Driver information panel with lighting fault indicator
- Automatic rain-sensitive flat blade wipers with integrated wash function
- Electronic, heated, black folding door mirrors with integrated LED indicator, LED approach lighting
- Electrochrome rear view mirror

Exterior Features

- 19" Alloy wheels with locking wheel nuts
- Metallic paint (Standard: Magnetic Blue)
- Body coloured door handles
- Gloss black door mirrors
- Chrome Citroën chevrons integrated into the front grille and extending into front LED light signature
- Gloss black Citroën chevrons with chrome surround, chrome Citroën lettering and C5 X badging on rear tailgate
- Exterior A-pillar black trim

Interior Features

- Seatback storage pockets (rear of driver's and front passenger's seat)
- Multifunction leather steering wheel with paddle shifters, driving assistance and infotainment control functions
- Courtesy lighting: front roof light, rear roof light, central console lighting, LED illuminated glovebox and LED boot light
- Satin chrome highlighted air vents and steering wheel
- Black leather-effect central armrest with overstitching
- Mistral carpet with reinforced driver's foot well
- "Magic Handles" allows rear seats to be folded flat from the boot compartment
- Roll up awning fitted to tailgate
- Black tie down rings for secure load storage
- Storage area for emergency safety triangle/first-aid kit (NOT SUPPLIED)

Comfort and Convenience

- Automatic dual zone air-conditioning with Soft/Normal/Fast variable settings, A/C max function & single- zone function (through touch screen)
- Rear air vents with independent opening/closing and left and right airflow settings for rear seat passengers
- Outside temperature display
- High efficiency air filter
- Driver & front passenger sun visors with mirrors and LED lighting
- Driver foot rest
- Extra tinted, heated rear window
- Front electric windows
- Rear electric windows
- $\,$ $\,$ Proximity keyless entry (doors, boot and fuel filler flap) and start.
- Dashboard mounted black, backlit, chrome-ringed 'start/stop' button
- Illuminated passenger glovebox
- Smartphone storage in front of (front) centre armrest
- Storage under central armrest
- Front and rear door storage pockets
- Front and rear passenger storage areas in central console

In Car Entertainment

- 7" Digital instrument cluster with smoked glass
- Central touch screen with separate heating and ventilation controls (with ADAS and Home buttons)
- MyCitroën Drive Plus featuring: Multi window screen/Voice recognition/Connected 3D
 Navigation/Bluetooth streaming/Wireless Mirror screen/DAB digital radio
- MyCitroën Drive Plus electronic user guide
- Hi Fi System: 8 loudspeakers (2 front woofers, 2 front tweeters, 2 rear woofers and 2 rear tweeters)
- 12V power outlet in front console

Items specific to C5 X Hybrid variants only

- 7.4 kW single-phase on-board charger
- Mode 3 charging cable with Type 2 connectors for accelerated charging from wall boxes and dedicated public charging points
- Remote temperature pre-conditioning (requires e-Remote Control service subscription free of charge)
- Charging point flap opening dashboard mounted button

NEW C5 X - STANDARD EQUIPMENT

SENSE PLUS

Specification

Exterior Features

- 19" Aero-X Alloys with Hephaïs grey paint & Onyx black aero inserts and locking wheel nuts
- Black trim on rear bumper

Interior Features

- Urban Grey Ambience featuring grey herringbone fabric & Isabella black leather-effect Advanced
 Comfort seats
- Multifunction leather steering wheel with paddle shifters, driving assistance and infotainment control functions
- Satin chrome dashboard strip and gloss black decor on bottom of door panels
- Painted grain dashboard and door panel decor
- Fabric front and rear door panel inserts

Lighting & Visibility

- Electronic, heated, black folding door mirrors with integrated LED indicator, LED approach lighting

Safety & Security

- Active safety brake with forward collision alert
- Reversing Camera with Top Rear Vision

Comfort & Convenience

- Acoustic insulated and tinted windscreen
- Extra tinted rear quarter panel windows

In-car Entertainment

 10" Central touch screen with separate heating and ventilation controls (with ADAS and Home buttons)

Items specific to Hybrid variant only

- 7.4 kW single-phase on-board charger

Figures shown are for comparison purposes and should only be compared to the fuel consumption and CO₂ values of other cars tested to the same technical standard. The fuel consumption achieved, and CO₂ produced, in real world conditions will depend upon a number of factors: (including but not limited to) the accessories fitted (pre and post registration), variations in weather, driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO₂ figures. These CO₂ figures are used to calculate the Vehicle Excise Duty (VED) for the first registration of the vehicle. The CO₂ figures reflect the value achieved on a vehicle of standard specification. The addition of optional extras to the standard specification vehicle could increase the certified CO₂ emission output. This in turn may affect the amount of Vehicle Excise Duty (VED) payable upon registration and, for company car drivers, the amount of benefit-in-kind (BIK) tax payable.

All information and prices correct at time of publication, but are subject to change at any time without prior notice (which may occur as a result of, but not limited to, any changes in legislation and/or any changes by the government). Please see our Prices and Specifications brochures or contact your local Citroën Dealership for the most up-to-date prices and specification details for all models.

As of 1st May 2021,

Tyres have been added to the European Product

It is a legal requirement that suppliers (manufacturers, importers or authorised representatives) register their appliances

Database for Energy Labelling (EPREL).

with an energy label before selling them on the European market.

Hype Black Ambience - featuring Mistral black Paloma leather
Advanced Comfort seats
- OPTIONAL on Shine trim.

19" Aero-X Alloys
with Hephaïs grey paint &
Onyx black aero inserts
(Standard on Sense Plus)

19" Aero-X Diamond Cut Alloys
with Onyx black paint &
Onyx black aero inserts
(Standard on Shine & Shine Plus)

Alloys feature lightweight flexible inserts that reduce overall weight and improve aero-dynamism via a turbine effect produced in conjunction with low rolling resistance tyres.

Adaptive Cruise Control with Stop & Go function.

The system makes use of a windscreen camera and front central radar to detect the presence of the vehicle in front and automatically maintain a safe distance-pre-selected by the driver in advance. The STOP function can bring the car to a stop if necessary.

Adaptive Cruise Control with Stop & Go function automatically manages vehicle acceleration & deceleration and adjusts speed up to a complete stop and automatic pull away after a short stop. The system functions between 0-111 mph.

¹Figures shown are for comparison purposes and should only be compared to the fuel consumption and CO₂ values of other cars tested to the same technical standard. The fuel consumption achieved, and CO₂ produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); variations in weather; driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO₂ figures. The CO₂ figures display a range to reflect the highest value for the highest emitting version with all available options added, through to a minimum value to represent the lowest emitting version in standard specification.

²Please note: the maximum plated weights must not be exceeded.

NEW C5 X - DIMENSIONS

SUMMARY OF KEY DIMENSIONS

	121 1010
Length (mm)	4805

Additional information	

C5 X provides enormous functionality:

- \cdot 545L boot volume (500L floor to roof & 45L under floor/carpet)*
- · 485L boot volume (460L floor to roof & 25L under floor/carpet)**
- Key Dimensions:
- Length of floor: 977 mm* / 994 mm**
- Height of threshold: 50 mm
- Width at wheel arch: 1010 mm
- Loading height: 646 mm
- Distance between parcel shelf to carpet: 520 mm*/476 mm**
- Extends up to 1640L* / 1580L** with rear seats folded.
- · Large, square entry with low loading sill
- · Roll up attached to the tailgate for practicality and ease of access)
- · 'Magic handles' (allow rear seats to be folded from the trunk)
- Floor rails for easy, low-friction loading ***
- Motorized tailgate with hands free function***
- * For ICE versions without spare wheel/Hifi upgrade option.
- ** For Hybrid versions without spare wheel/Hifi upgrade option.

FREE2MOVE CONNECT FLEET

Citroen vehicles featuring the Connect Box emergency and assistance system are 'connected-ready' so that you can benefit from any of our connected services without the need for additional hardware. Free2Move Connect Fleet offer the following telematics packages to manage your fleet:

- Pack 1: Fleet Management £10 + VAT per vehicle per month
- Pack 2: Eco-driving £11 + VAT per vehicle per month
- Pack 3: Geolocation £12 + VAT per vehicle per month

Further details are available at www.free2move-lease.co.uk/our-services/connect-fleet

CITROËN CONNECTED SERVICES

Vehicles equipped with the Citroën Connect box, have an embedded SIM card. So as well as the safety features of this system, a range of other 'connected services' which require data transmission, can be offered on a subscription basis.

- Telemaintenance: proactive monitoring of your vehicle & contact when something needs attention
- Real Time Traffic & Speedcam: live data to enhance the Citroën Connect Nav system
- E-Remote Control: remote management of electric vehicle charging & temperature*

Service availability depends on the hardware on each vehicle. To see if your vehicle is eligible for any services and subscribe, log in or create an account on https://services-store.citroen.co.uk/

COMPREHENSIVE WARRANTY

Every new Citroën car offers the benefit of a three year* warranty package, plus a 12 year anti-perforation** warranty and a three year paint warranty.

- * Two years' unlimited mileage manufacturer's warranty. No-fee customer option of one year's Dealer provided warranty, only on cars sourced from Citroën UK Limited. Note: Dealer provided warranty is limited to 60,000 miles for cars and 100,000 miles for light commercial vehicles (excluding motorhomes and other converted vehicles).
- ** Against all internal to external perforation to bodywork or underbody on condition the car undergoes an inspection by a Citroën franchised Dealer every two years from its fourth anniversary.

CITROËN ASSISTANCE

In response to a free telephone call in the UK, Citroën Assistance brings rapid expert roadside assistance to you in an emergency. It comes free of charge for a full year, from date of vehicle registration, and operates 24 hours a day in all parts of the UK and Europe. Services include nationwide recovery for both car and passengers, a home call service, replacement vehicle, hotel accommodation and vehicle storage if required.

You can also purchase additional Citroën Assistance via your local Citroën dealer at any time. Citroën Assistance applies to incidents covered by the new vehicle warranty, and excludes non-vehicle faults, such as running out fuel or mis-fuelling, instances where keys have been locked inside the vehicle or lost/stolen, road traffic accidents and punctures/wheel changes.

TERMS & CONDITIONS

Every endeavour has been made to ensure that the information, details and descriptions set out in this literature are correct, at the time of going to print.

We reserve the right to modify our vehicles price, specification (including colour), equipment, accessories and characteristics or to discontinue any model, without notice, at any time.

To avoid any misunderstandings you are advised to check with your Dealer the specification (including colour), equipment accessories and equipment relating to any vehicle and the exact cost and availability prior to ordering.

DISCOVER OUR CONNECTED SERVICES

All information and prices correct at time of publication, but are subject to change at any time without prior notice (which may occur as a result of, but not limited to, any changes in legislation and/or any changes by the government).

Please see our Prices and Specifications brochures or contact your local Citroën Dealership for the most up-to-date prices and specification details for all models.

^{*}Applies only to electric vehicles and plug-in hybrids
