

New i10

Go ahead. Make a big statement.

In life, it's the small things that make a big difference. Like the new Hyundai i10. With its refreshed expressive design and stellar selection of cutting-edge smart tech – it's a clever companion that gives you the style and flexibility you need to live life by your rules.

Bolder and more beautiful.

With a dynamic update of its expressive design, this bold city car is giving new meaning to the old saying: good things come in small packages. Now featuring a sportier stance, the new i10 gives off a bolder feeling thanks to its low roof and long wheelbase. In the front, the LED Day Running Lights have now been integrated into the sporty wide front grille, which features a new honeycomb mesh design for a powerfully modern statement.

You're in for a big surprise.

The muscular styling of the new i10 has been shaped to maximise interior space, allowing room for 5 people. On the exterior, a redesigned LED light signature creates a distinctive new look, further enhanced by standard diamond-cut alloy wheels across the range.

Perfect for small spaces and big moments.

City streets can get a bit crowded sometimes. So when it comes to navigating narrow intersections and squeezing into tight parking spaces, you'll love this award-winning city car's refreshing manoeuvrability. Measuring just 3.67 metres long and 1.68 metres wide, the new i10 combines a compact exterior with a roomy interior. So, no matter if you're parallel parking in traffic or packing loads of luggage for a weekend get-away, the new i10 gives you plenty of cargo space and flexibility to live your life in a big way.

Precision roominess and cutting-edge smart tech.

Inside the stylish cabin, new patterns, fresh textures and the latest multi-media technology welcome you with a clean and modern look. Sleek and futuristic, the new digital instrument cluster give you easy-to-read access to a wide range of car systems and driver information together with the 8" centre touch-screen. An eye-catching 3D honeycomb pattern is featured on the dashboard and door panels for a sporty edge throughout the cockpit. And the circular air-vents visually extend the dashboard into the door trim for a wider, more spacious feeling.

Arm rest not UK specification.

Arm rest not UK specification.

Connected Car Services.

Control your i10 from your smartphone – or with your voice. The optional navigation system includes BlueLink connectivity, which enables you to control certain features remotely from the BlueLink app on your smartphone. A 3-year subscription to Hyundai's LIVE services is also included, which unlocks full suite of Connected Car Services such as real time traffic and fuel price information. You'll also receive two free map and infotainment software updates per year automatically over the air, without needing to manually install them or visit a retailer.

Destination send to car.
Simply get in and press go. If your new i10 is equipped with navigation, you can use the BlueLink app to search for destinations while outside of your car. BlueLink then syncs with your navigation system, loading the route so that it is ready to go when you are.

Find my car.
Forgot where you parked? No problem. Just open the BlueLink app and the map will guide you there.

Remote door lock & unlock.
Forgot to lock your car? Don't worry, your new i10 will let you know by sending a push notification to your smartphone. Then, after entering your PIN, you can lock or unlock your new i10 using a button in the BlueLink app.

On-demand diagnostics.
For more peace of mind, you can run a full vehicle diagnostic check on your vehicle's health using the BlueLink app on your smartphone.

Live fuel price information.
Find fuel when you need it, at a nice price – the continually updated fuel service coverage provides you with current fuel prices and information on location, opening times, and payment methods.

On & off-street parking.
Find a parking spot faster for more efficient and stress-free parking. The parking information features help you find and compare parking options in garages, parking lots and on the street.

Clever connectivity and convenience.

Versatile load space.

One of the biggest in the segment, the 252-litre boot is also very adaptable. The two-stage luggage board maximises space in the lower position, the upper position creates a level loading area for long items. And the one-hand folding split rear seats drop down quickly for 1050 litres of cargo space.

Wireless charging and USB-C.

A wireless charging tray is standard on Premium and N Line models which lets you easily charge a compatible Qi-enabled smartphone from the centre console. And for fast charging and universal compatibility, there's a USB-C port in the front and the rear. The front has a USB-A port for data as well.

Digital cluster and 8" touch screen with rear view camera.

The new i10 offers you one of the most comprehensive connectivity offerings in its class with a new digital cluster as well as Apple CarPlay™ and Android Auto™ to mirror your smartphone on the 8" centre touch-screen. It also makes reversing easier. The rear view camera system utilises the centre touch-screen to give you an unobstructed look behind your new i10 while in reverse gear.

Apple CarPlay™ is a registered trademark of Apple Inc. Android Auto™ is a registered trademark of Google Inc.

Efficiency never looked this good.

Depending on your preference, you can choose from two multi-point fuel injection petrol engines: a 1.0-litre 3-cylinder with 67 PS and 96 Nm torque, as well as a 1.2-litre 4-cylinder with 84 PS and 117.6 Nm torque. Both engines are available with two transmission choices: the five-gear automated manual transmission (AMT) does the shifting for you, delivering the easy and relaxed driving of an automatic transmission but with higher efficiency. The smooth-shifting 5-speed manual transmission is designed for fast, precise gearshifts.

Hyundai SmartSense

With Hyundai SmartSense, our cutting-edge Advanced Driver Assistance Systems, the new i10 offers one of the most comprehensive active safety technology packages in its class – built to provide you with more safety and peace of mind. A multi-function camera in combination with multiple sensors, provides the 6 different functions highlighted here.

Lane Keeping Assist (LKA)

Lane Keeping Assist uses the front multi-function camera to monitor the lines of the road. In case of an unintended lane departure, it warns you and can apply steering control to guide the car back to the lane.

Leading Vehicle Departure Alert (LVDA)

This clever feature for city driving alerts the driver when the vehicle in front departs from an idle state, like at a stoplight or in a traffic jam.

Driver Attention Warning (DAW)

When a pattern of fatigue or distraction is identified, the system gets your attention with an alert and pop-up message suggesting a break.

Intelligent Speed Limit Assist (ISLA)

Recognises road speed signs and displays the speed limit in real time in both the navigation system display and instrument cluster. When Smart Cruise Control is on, ISLA offers the possibility to easily adapt your speed to the speed limit.

Forward Collision-Avoidance Assist (FCA)

Sensing the road ahead with the multi-function camera, FCA warns you and then automatically brakes when it detects sudden braking by a car ahead. Includes pedestrian and cyclist detection.

N Line – A strong statement of sporty design.

Take it to the next level with eye-catching design elements inspired by our high-performance N models. The exclusive front bumper design houses a larger grille with unique diagonal LED running lights for a striking appearance easily distinguishable from the rest of the i10 range.

Available exclusively with a turbocharged 100PS engine, i10 N Line boasts extra performance to match its sporty looks.

Dynamic and Assertive. From every angle.

One look is all it takes to see the motorsport roots of the new i10 N Line. Its exterior design enhancements include an exclusive N grille and bumpers, giving it a dynamic look reminiscent of the high-performance N models. The updated rear LED combination lights feature a redesigned light signature for an even more dynamic look and better visibility – and together with the exclusive new 16-inch alloy wheels – emphasise this city car's sporty edge.

Get into a whole new level of sportiness.

Sit down in the new i10 N Line's upgraded cockpit and you'll feel its motor sport roots instantly. The exclusive N Line steering wheel and gearshift are enhanced by the red air vent rings set in a black finish dashboard. The sporty seats have been redesigned with new triple red line fabric with a dynamic new pattern, red contrast stitching and now are heated as standard.

Personalise your perfect version.

With 8 exterior colours and a two-tone roof available in Phantom Black* to choose from - you can personalise your own distinctive look with a wide range of dynamic colour combinations.

*Only N Line is available with the two-tone roof option.
