

Our cosmetic and alloy wheel maintenance plan offers comprehensive cover levels to protect you against future repair bills.

Summary

A summary of items excluded are listed below:

General

- Any maintenance treatment/repair request which was not completed during the period specified in the terms and conditions.
- The costs relating to losses normally covered under a comprehensive road risks insurance policy (whether or not an excess applies) or losses resulting from a road traffic accident to the vehicle.
- As a result of fire or theft of the vehicle.
- Any treatments to the bonnet or boot (other than surface scratches and stone chips).
- Any treatments to the roof.
- Where the required treatment area in a single request for a single panel is greater than 30cm.
- Where the body panel is ripped, perforated or torn.
- Where the bumper or wing mirror casings are cracked.
- Beading, moulding or unpainted plastic panels, accessories, door mouldings, wing mirror glass, window mouldings, lights of any sort or any window panel.
- Deterioration, oxidisation, hail, corrosion, neglect or a defect.
- Any loss of use of your vehicle or any additional costs related to the maintenance or inspection events of any kind.
- Where the alloy wheel is cracked or distorted.

A full list of exclusions are detailed in the applicable Terms and Conditions.

Cosmetic Repair

Cosmetic and alloy wheel maintenance plan

To book your vehicle in, please visit:

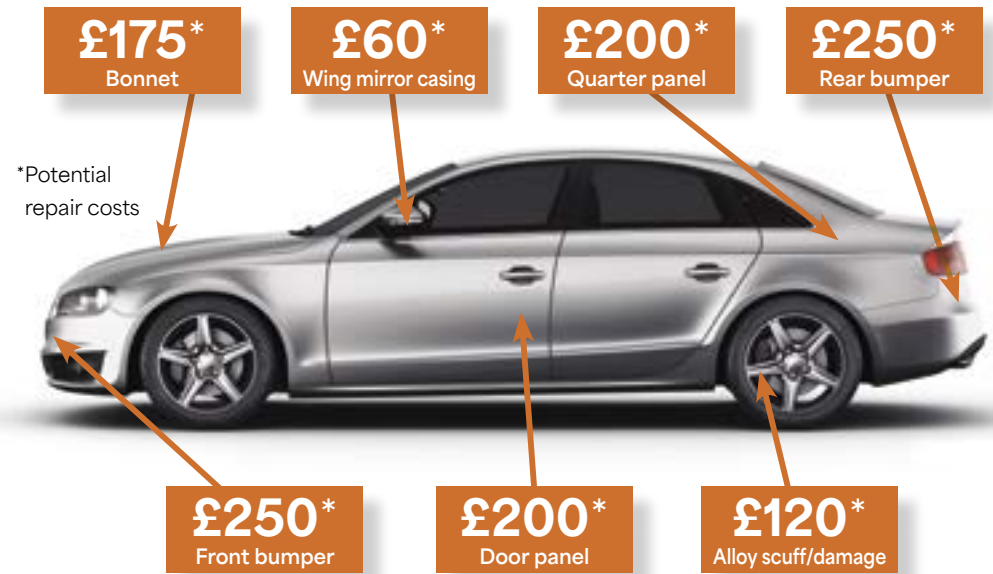

Provided by EMaC.

Hassle-free motoring, all taken care of.

The plan will provide 4 quarterly maintenance inspections per annum. Each will consist of a cleanse and visual check on the items listed to ascertain whether these items require any treatment/repairs.

Inspections

1. Cosmetic

- Check bonnet
- Check boot
- Check front bumper
- Check rear bumper
- Check all exterior door panels
- Check all quarter panels
- Check condition of all wing mirror casings

2. Alloy Wheels

- The general cosmetic condition of the alloy wheels
- Check for any debris marks, surface scuffs, scrapes, scratches or other minor indentations

Treatments/repairs

During the inspection, in the event that our maintenance agent identifies a treatment requirement to the alloy wheel or bodywork of your vehicle which can be treated using cosmetic treatment techniques (as defined in the Terms and Conditions), we will provide these treatments up to the lesser of:

1. Cosmetic

Up to 10 treatments per annum for minor stone chips or other debris marks, surface scuffs, scrapes or scratches or other minor indentations.

2. Alloy Wheels

Up to 4 treatments per maintenance year for debris marks, surface scuffs, scrapes, scratches or any other minor indentation.

All treatment/repairs are guaranteed
