THE POWER OF WHAT IS ESSENTIAL

Admire the style of Dacia Sandero, a combination of robustness and dynamic lines: simply stunning. Its front and rear Y-shaped signature brand light puts the finishing touches on a strong and modern identity. Its LED dipped headlights will light up the road at night like never before.

The black radiator grille with touches of white adds to its personality. The Sandero spirit that you enjoy so much is also found in the details, such as the glossy black door mirrors, the shark fin antenna and the 16" alloy wheels.

*16" Randia alloy wheels are standard on the Journey version.

SAFETY ALL THE TIME

At Dacia, safety has always been at the heart of our concerns. Built on the latest platform designed for our vehicles, Dacia Sandero has a reinforced body structure and new-generation assistance systems. Thanks to the My Safety button, you can deactivate some of these aids at each start-up as well as when the vehicle is running. With Dacia, drive with peace of mind.

AUTOMATIC EMERGENCY BRAKING WITH PEDESTRIAN/CYCLIST DETECTION

This system prevents the risk of frontal collisions involving other vehicles, pedestrians or cyclists straight ahead and at junctions. It alerts the driver and can automatically brake the vehicle if necessary.

LANE KEEPING ASSIST

This assistance system monitors the vehicle's path in its lane and corrects it if necessary by automatically steering it.

DRIVER FATIGUE DETECTION SYSTEM

This helps warn the driver if fatigue is detected by analysing several parameters – including movements of the steering wheel – to encourage them to take a break.

TRAFFIC SIGN RECOGNITION WITH SPEED ALERT / INTELLIGENT SPEED ASSIST

This system provides a reliable real-time indication of the maximum speed on the road and warns the driver if they exceed the speed limit with visual and audible alerts (which can be disabled).
