

SMALL CAR **BIG FUN**

ALL-NEW
Super-N

Meet the small EV with a big personality that's engineered to make **driving a dream**

With its Japanese Kei car inspired aesthetic, the Super-N delivers on style and performance in a big way.

Packed with exciting features, including an instantly exciting BOOST Mode, Active Sound Control, paddle gears and Bose® speaker system, it makes every ride a thrill.

Whether it's weaving through traffic, nipping into the smallest spaces, or loading up its surprisingly spacious interior, it's the ultimate car for modern living.

The Super-N comes in a choice of carefully
curated colours, or even level up with
a two-tone roof combination*. There's
something for everyone's style and mood.

*Two-tone black roof is available with non-black body colours only.

SMALL ON THE STREET BIG ON THE MAP

The Super-N doesn't try to mimic bigger cars; it embraces its size and turns it into a strength.

By pairing a neat, easy-to-park frame with a sharp, athletic profile, this punchy shape does more than turn heads, it commands the street.

YOUR SEAT YOUR WAY

Step inside the Super-N.

It completely defies its size, easily fitting four adults in a calm, airy cabin.

Stay locked into the action with heated front sports seats, finished in a high spec synthetic leather and fabric upholstery with whiplash-lessening headrests, for maximum comfort and support.

Complete with a distraction-free dash and signature Honda Magic Seats for total flexibility, whatever the day brings.

SERIOUS ABOUT **FUN**

Packed with performance features that
make every drive impossible to forget.

FIVE MODES ENGINEERED

- **ECON Mode** – the marathon runner that smooths out your inputs to ensure maximum efficiency.
- **CITY Mode** – simplifies the hustle with single-pedal drive, allowing you to glide through stop-and-go traffic with seamless precision and ease.
- **NORMAL Mode** – the perfect everyday balance of smooth steering and responsive power for your commute or daily trips.
- **SPORT Mode** – the athletic upgrade that tightens the steering and sharpens the throttle for a more connected, high-energy drive.
- **BOOST Mode** – the exciting new driving mode engineered specially for Super-N.

BOOST Mode

Standard fun is just the starting line. To level up, hit the BOOST Mode button for an instant surge in power as the cockpit lights up to switch the vibe from day to night.

SEE the power

The cockpit lights up in purple as your **triple meter** activates. Get real-time performance data at a glance with dedicated displays for **battery temperature**, a **tachometer** and a **power meter** to track your jump from **47kW** to **70kW**.

HEAR the roar

Get a classic engine roar with **Active Sound Control (ASC)**. It syncs with your acceleration for a more immersive drive.

FEEL the thrill

With simulated gear shifts and sharper steering, it's a powerful take-off that puts you in total control.

EASY DOES IT

Ready in minutes, powered for hours and smart enough to handle anything or anyone.

THE PERFECT FIT

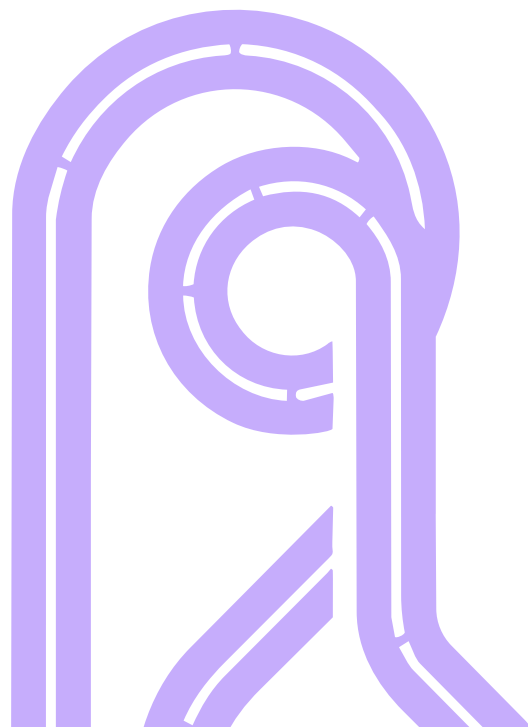

The Super-N is the ultimate city companion.

Compact enough to zip into tight spots, but surprisingly spacious inside.

Thanks to a flat floor and Honda's legendary Magic Seats, the layout can be flipped in seconds to fit everything from weekend trips to grocery hauls with an ample 967* litres of boot space.

A masterclass in space, the Super-N is proof you don't need a big car to live a big life.

*Rear seat down load to roof. VDA method.

A photograph of a car's interior, focusing on the dashboard and steering wheel area. A bright blue ambient light strip runs horizontally across the dashboard. The center console features a touchscreen display showing a smartphone interface with icons for Phone, Music, and Now Playing. The steering wheel is partially visible on the right. The background shows a blurred view through the windshield, suggesting motion. The overall color palette is dark with a strong blue accent.

EFFORTLESS EDGE

The Super-N is thoughtfully engineered to eliminate everyday driving stress. Single-pedal drive turns stop-start traffic into a smooth glide and enjoy great agility with features like parking sensors and a rear camera making tight spots an easy win.

Inside, front heated sports seats and a heated leather steering wheel take the edge off cold mornings, bringing high-performance comfort to the daily commute.

CHARGE UP
THE FUN

Fast charging

When using a 50kW DC fast-charger station, the Super-N can charge up to 15%-80% in approximately 30 minutes[^].

Normal charging

The Super-N supports AC charging for everyday use[^]

- 4 Hrs to top up 15%-100% (approx) with 7kW AC charging
- 3 Hrs to top up 15%-100% (approx) with 11kW AC charging

Charging via smartphone

With the **My Honda+** app, check your charge level, set up a regular charging schedule, and control climate settings remotely.

Our **e:PROGRESS** app helps save you money by optimising charging when energy costs are lower. Plus, discover home chargers through our trusted partner, Pod.

Once fully charged, the Super-N offers a driving range up to 128 miles*, but you can stretch that up to 199 miles** in the city.

*WLTP Combined

**WLTP City

Car shown is the Honda Super-N Full Electric Advance in Boost Violet Pearl. Economy & Emissions figures (WLTP**) Range: Power consumption in kWh/100 km: 14.8; CO2-emission combined (g/km): 0. Electric range combined: 128 miles. The Honda Super-N is a battery electric vehicle requiring mains electricity for charging. Zero emissions whilst driving. Electric range figures may not reflect real life driving results, which will depend upon a number of factors including the starting charge of the battery, accessories fitted (post-registration), variations in weather, driving styles and vehicle load.

[^] Indicative charge times shown, for comparison purposes. Super-N AC on-board charger is 1 & 3 phase and has a max charging capacity of 10kW. A charge from 15% - 100% can be achieved in approximately 4 hours with 7kW AC charger, approximately 3 hours with a 11kW AC charger and 30 mins to charge from 15% - 80% using a 50kW DC charger, in optimal conditions such as a temperature around 25°C. Actual charging times may vary depending on various factors: including the age, type, charging capacity, condition and temperature of the charging unit and the battery, max charging rate of the vehicle and the charge point, the starting charge and environmental conditions.

A PURE TECH POWERHOUSE

More than you'd expected, right where you need it.

SEAMLESSLY INTEGRATE YOUR WORLD

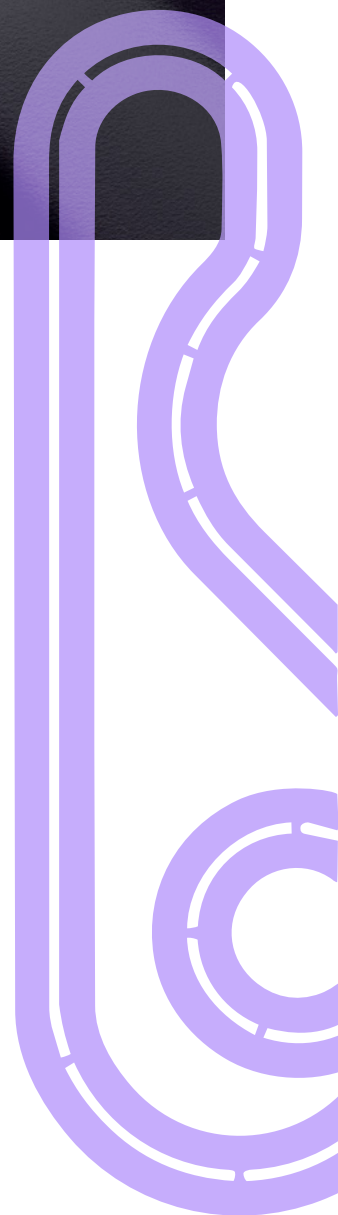

Super-N links your digital world straight to your drive to make it nothing but dreamy.

The clear, highly visible Honda CONNECT screen puts everything right in your line of sight.

It brings your entertainment front and centre with wireless **Apple CarPlay®** and **Android Auto™** crystal clear through premium **Bose®** speakers.

With **My Honda+** app you can enjoy features like remote locking, digital key, car locator or geo fence free for 3 years from purchase.

SMALL CAR PACKED WITH SAFETY

All the excitement, with reassurance built in.

THE Honda SENSING **SAFETY SUITE** IN ACTION

Available as standard on the Super-N, this advanced driver-assist system delivers proactive protection for a secure, confident and genuinely fun drive.

- **Collision Mitigation Braking System**

A proactive protector. It senses what you might miss, like a sudden stop or a pedestrian and steps in with a warning or automatic braking.

- **Road Departure Mitigation System**

Stay on track. If the system detects the vehicle drifting off the road entirely, a subtle, reassuring nudge helps guide it back to safety.

- **Lane Keeping Assist System**

Effortless alignment. By monitoring lane markings, the system provides subtle steering inputs to keep the vehicle perfectly centred.

- **Adaptive Cruise Control with Traffic Jam Assist**

From the open road to stop-and-go traffic, set your pace and let the car maintain a safe, consistent gap from the traffic ahead.

- **Cross Traffic Monitor**

Helping you safely reverse out of parking spaces or driveways even with limited visibility. When you're in reverse, sensors detect cars or pedestrians approaching from either side and warn you.

A purple car is parked on a rooftop at dusk. A spotlight illuminates a patch of the concrete ground. In the background, there is a concrete wall with several vertical pipes and a dark building with a window. The sky is a mix of orange and blue.

**PACK IT WITH
STYLISH
ACCESSORIES**

SUPER-N STYLE PACK

This creative accessory pack further enhances the quirky design of your Super-N.

The pack includes the centre stripe decals in matte grey (for the bonnet, roof and tailgate spoiler), side stripe decals in Starry Silver (right and left side striping) and the unique Style Pack elegance floor mats.

A variant of this pack without the floor mats is also available. The Style Pack decals are not sold as individual items. Model shown is the Super-N in Boost Violet Pearl with optional two-tone roof.

BLACK EMBLEM PACK

It's all about the little details. The Black Emblem Pack enhances the distinctive design of your Honda Super-N with a premium finish.

This kit includes a front H-Mark and rear Honda logo, both finished in black chrome, perfectly complementing the vehicle's styling for a sleek appearance.

SMALL EXTRA TOUCHES BIG PERSONALISATION

1. Elegance floor mats

These elegant and comfortable fitted tufted carpets are made from sustainable material, with a black woven binding with silver stitching and they feature a woven H-Mark logo.

They are supplied as standard with your Super-N.

One set includes: front mats, front mat extensions and a rear mat.

2. Super-N Style Pack elegance floor mats

The Style Pack elegance floor mats match the car's distinctive character. These mats are made from sustainable materials and bring a stylish finish to the interior.

They effortlessly tie in with the exterior elements of the Style Pack, ensuring your Super-N looks good on the inside and on the outside.

One set includes: front mats, front mat extensions and a rear mat.

3. Mode 2 cable

This Mode 2 charging cable (P-EVSE, 10A UK) is designed for everyday convenience and allows you to charge your Honda Super-N using a standard household electrical outlet. The cable has a length of 6 metres.

4. Mode 3 cable

This Mode 3 charging cable (3 Phase) is designed to connect your Honda Super-N

directly to a home wall box installation or a public charging location. With a generous 7-metre cable length, it offers added flexibility and convenience when parking and charging in a variety of environments.

The Mode 3 charging cable is supplied as standard with your Super-N for added convenience.

5. Boot tray

This waterproof anti-slip boot tray is perfectly shaped to fit your car's rear storage space and will protect the boot from dirt and scratches. It has raised edges and features the H-Mark logo.

6. Honda KIDFIX

This clever 2-in-1 child seat, approved to the latest I-SIZE regulation, allows you to comfortably fit small and large passengers from 3.5 to 12 years. The backrest grows with your child and offers plenty of room while protecting them at the same time.

This seat is fully reclinable and anchors directly to the car's chassis. In addition – for children above 135cm, you can easily remove the backrest.

7. Wheel lock nuts black

These cap-type locking wheel nuts keep your alloy wheels where they should be – on your car. It's a perfect fit for alloys with black design features.
